SECTION C DESCRIPTIONS AND SPECIFICATIONS

Performance Work Statement

for

Support for Chief of Naval Operations (CNO) Staff (N6F)

1.0 Background

The military services assist OSD in the development and implementation of DoD Positioning, Navigation and Timing (PNT) and Space Control policy and are active participants in the DoD PNT Executive Committee (EXCOM) and Working Group activities, Space Control Capabilities Based Assessment (CBA) and Net-Centric (NC) Functional Control Board (FCB). Space based PNT and GPS provides three-dimensional precise navigation, positioning, timing and velocity data to U.S. and allied forces, and to other national security, civil and commercial users. Current and future naval operations, missions and functions such as time sensitive targeting, ballistic missile defense, power projection, electronic navigation and communications networking require the use of GPS. The GPS requirements section within N6F1 monitors the development, integration and fielding of GPS receivers and antennas in all surface ships and submarines while supporting the developing and integration of GPS receivers and antennas in naval aircraft. Space systems require a continuous assessment of their vulnerability and development of vulnerability mitigation plans and programs for current and future systems.

2.0 Scope

The N6F1 Space & Communications Pathways Branch of N6 requires contractor assistance in the development of space systems vulnerability mitigation plans and programs for current and future systems, and in monitoring the programmatic life cycle of PNT and GPS systems and related programs. The contractor will provide a broad range of programmatic support for current and future systems, including capital planning, database management, technical analysis, and assessments. This will require preparation of cogent power point presentations, briefs, information papers, impact and risk mitigation papers, and attendance at meetings that assist N6 government personnel in identifying, assessing, prioritizing, validating and adjudicating Navy and Joint Service Warfare capabilities and requirements.

3.0 Tasks

3.1 Space Systems Vulnerability Assessment and Space Control

3.1.3 Assist the Navy Space Control requirements officer in the development of issues to support the CNO's Space Control input to the annual Program Objective Memorandum (POM).

3.1.4 Provide technical and analytical support to the designated Navy lead participating in the Net Centric Functional Capability Boards (NC FCB).

3.1.5 Work closely with N8 and other joint, DoD and agencies to monitor ongoing studies and analyses to determine Navy space vulnerabilities and develop recommended mitigation strategies.

3.1.6 Support requirements officer as N6 primary liaison for the Navy Space Team (N1, N2, N3/N5, N8, SPAWAR Space Field Activity (SSFA), Naval Research Lab (NRL), Office of Naval Research (ONR), Oceanographer of the Navy, and Naval Network Warfare Command (NNWC)) to the Joint, DoD and Intelligence Community to mitigate the impact of space vulnerabilities on accomplishing the Navy's mission especially in denied environments.

SECTION H SPECIAL CONTRACT REQUIREMENTS

H-XX NOTIFICATION CONCERNING DETERMINATION OF SMALL BUSINESS SIZE STATUS

For the purposes of FAR clauses 52.219-6, NOTICE OF TOTAL SMALL BUSINESS SET-ASIDE, 52.219-3, NOTICE OF TOTAL HUBZONE SET-ASIDE, 52.219-18, NOTIFICATION OF COMPETITION LIMITED TO ELIGIBLE 8(A) CONCERNS, and 52.219-27 NOTICE OF TOTAL SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS SET-ASIDE, the determination of whether a small business concern is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the size standards in this solicitation, and further, meets the definition of a HUBZone small business concern, a small business concern certified by the SBA for participation in the SBAs 8(a) program, or a service disabled veteran-owned small business concern, as applicable, shall be based on the status of said concern at the time of award of the SeaPort-e MACs and as further determined in accordance with Special Contract Requirement H-19.

52.219-6 NOTICE OF TOTAL SMALL BUSINESS SET-ASIDE (JUNE 2003)

- (a) Definition. "Small business concern" as used in this clause, means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the size standards in this solicitation.
- (b) General. (1) Offers are solicited only from small business concerns. Offers received from concerns that are not small business concerns shall be considered nonresponsive and will be rejected. (2) Any award resulting from this solicitation will be made to a small business concern.
- (c) Agreement. A small business concern submitting an offer in its own name shall furnish, in performing the contract, only end items manufactured or produced by small business concerns in the United States or its outlying areas. If this procurement is processed under simplified acquisition procedures and the total amount of this contract does not exceed \$25,000, a small business concern may furnish the product of any domestic firm. This paragraph does not apply to construction or service contracts.

COST LIMITATION CEILINGS ON INDIRECT RATES (FISC DET PHILA) (OCT 1992)

If an offeror proposes cost limitation ceilings on indirect rates the offeror is advised that the Government may evaluate the offeror's cost proposal accordingly. The decision to propose cost limitation ceilings is the offeror's decision. In the event the offeror proposes indirect rate limitations, these same ceiling rate limitations may be incorporated into any resultant contract without discussion. Under any cost reimbursement contract, the indirect rates billed shall be limited to the ceiling rate(s) identified in the contract. Any costs incurred above ceiling rates are not allowable.

- (2) "Illegal drugs," as used in this clause, means controlled substances included in Schedule I and II, as defined by section 802(6) of Title 21 of the United States Code, the possession of which is unlawful under Chapter 13 of that Title. The term "illegal drugs" does not mean the use of a controlled substance pursuant to a valid prescription or

CONTRACT NO. N00178-07-D-5178	DELIVERY ORDER NO. EX01	AMENDMENT/MODIFICATION NO. 20	PAGE 28 of 38	FINAL

other uses authorized by law.

(b) The Contractor agrees to institute and maintain a program for achieving the objective of a drug-free work force. While this clause defines criteria for such a program, contractors are encouraged to implement alternative approaches comparable to the criteria in paragraph (c) that are designed to achieve the objectives of this clause.

(c) Contractor programs shall include the following, or appropriate alternatives:

(1) Employee assistance programs emphasizing high level direction, education, counseling, rehabilitation, and coordination with available community resources;

(2) Supervisory training to assist in identifying and addressing illegal drug use by Contractor employees;

(3) Provision for self-referrals as well as supervisory referrals to treatment with maximum respect for individual confidentiality consistent with safety and security issues;

(4) Provision for identifying illegal drug users, including testing on a controlled and carefully monitored basis. Employee drug testing programs shall be established taking account of the following:

(i) The Contractor shall establish a program that provides for testing for the use of illegal drugs by employees in sensitive positions. The extent of and criteria for such testing shall be determined by the Contractor based on considerations that include the nature of the work being performed under the contract, the employee's duties, the efficient use of Contractor resources, and the risks to health, safety, or national security that could result from the failure of an employee adequately to discharge his or her position.

(ii) In addition, the Contractor may establish a program for employee drug testing-

(A) When there is a reasonable suspicion that an employee uses illegal drugs; or

(B) When an employee has been involved in an accident or unsafe practice;

(C) As part of or as a follow-up to counseling or rehabilitation for illegal drug use;

(D) As part of a voluntary employee drug testing program.

(iii) The Contractor may establish a program to test applicants for employment for illegal drug use.

(iv) For the purpose of administering this clause, testing for illegal drugs may be limited to those substances for which testing is prescribed by section 2.1 of Subpart B of the "Mandatory Guidelines for Federal Workplace Drug Testing Programs," (53 FR 11980 (April 11, 1988)), issued by the Department of Health and Human Services.

(d) Contractors shall adopt appropriate personnel procedures to deal with employees who are found to be using drugs illegally. Contractors shall not allow any employee to remain on duty or perform in a sensitive position who is found to use illegal drugs until such time as the Contractor, in accordance with procedures established by the Contractor, determines that the employee may perform in such a position.

(e) The provisions of this clause pertaining to drug testing programs shall not apply to the extent they are inconsistent with state or local law, or with an existing collective bargaining agreement; provided that with respect to the latter, the Contractor agrees that those issues that are in conflict will be a subject of negotiation at the next collective bargaining session.

this contract.

(iii) "Affiliates" means employees or officers of the contractor and first tier subcontractors involved in the performance of this contract, or in the decision making process concerning this contract.

(iv) "Interest" means organizational or financial interest.

(v) "Term of this Contract" means the period of performance plus any extensions thereto.

(b) Warranty Against Existing Conflicts of Interest

(i) The contractor warrants that it and its affiliates do not have any contracts with or any substantial interest in the system suppliers identified in the statement of work of this contract, other than those disclosed to the Government and listed in the section L solicitation provision entitled "Notice of Inclusion of an Organizational Conflict of Interest clause."

(ii) The contractor recognizes that during the term of this contract additional weapon system, equipment or programs may be identified and added to the statement of work of this contract as a result of contract modifications. In such event, the contractor agrees to immediately disclose to the Government information concerning any contract or interest between the contractor and its affiliates and any system supplier if the contract or interest arises during the term of this contract.

(iii) The contracting officer shall have the sole discretion to determine whether a potential organizational conflict of interest exists concerning any interest or contract which arises or is identified during the term of this contract. The contracting officer may take such steps as are necessary in the best interest of the Government to eliminate potential conflict of interest.

(c) Restrictions on Contracting

(i) The contractor agrees that during the term of this contract, and for a period of 36 (thirty-six) months thereafter, neither it nor its affiliates shall (1) enter into any contract for supplies, services or materials, related to the work under this contract with the system suppliers; (2) create for themselves any interest in the system suppliers; (3) consult or discuss with the system supplier any aspects of work under this contract; or (4) furnish to the United States Government, either as a prime contractor or as a subcontractor any component of a system it has worked on or had access to under this contract.

(ii) The contractor further agrees that neither it nor its affiliates will conduct a review nor make recommendations under this contract concerning any item which is the product of work performed by the contractor or its affiliates under any other contract.

(d) Non-Disclosure of Proprietary Data

Certain information of a proprietary nature may be submitted to the Government by a system supplier. While performing under this contract, the prime contractor and any subcontractors may receive this information. The prime contractor and any subcontractors agree to use and examine this information exclusively in the performance of this contract and to take the necessary steps to prevent disclosure of such information to any party outside the Government, as long as it remains proprietary. The contractor and the subcontractors agree to indoctrinate their affiliates who will have access to this information as to the proprietary nature of the information and the relationship under which they have possession of the information. Affiliates will also be informed that they may not engage in any other action, venture or employment where this information will be used for profit of any party other than the party furnishing this information. Additionally, the contractor and subcontractor agree to execute agreements to this effect with companies providing proprietary data for performance under this contract. The contractor and subcontractors will restrict access to proprietary information to the minimum number of employees for performance of this contract.

(e) Government Remedy

The contractor agrees that any breach or violation of the warranties, restrictions, disclosures or non-disclosures set forth in this conflict of interest clause shall constitute a material and substantial breach of terms, conditions, and provisions of the contract and that the Government may, in addition to any other remedy available, terminate the

In the event that the Contractor and/or its personnel will obtain, receive, or learn data of other entities as a result of performance of this contract, the Contractor shall execute a non-disclosure/non-use agreement with each such entity. The Contractor shall provide such executed non-disclosure/non-use agreement with an entity to the Contracting

(e) Requirement to Disclose Data

If the Contractor receives a court order requiring disclosure of data obtained, received, or learned as a result of performance of this contract or if the Contractor believes disclosure of such data is otherwise required by law or regulation, the Contractor shall contact the Contracting Officer immediately and fully inform the Contracting Officer of the court order or other requirement prior to any disclosure of data.

(g) Government Remedy

Any violation of the terms of this “Non-Disclosure and Non-Use of Data” clause is a material and substantial breach of this contract, and the Government may, in addition to any other remedy available, terminate this contract, or any part thereof, for cause or default.

Note: The subcontractors shall comply with and be bound by the “Note Regarding Organizational Conflict of Interest”, the “Organizational Conflict of Interest” clause and “Non-Disclosure and Non-Use of Data” clause. The contractor shall ensure that the Note and the clauses flow down to any subcontracts/agreements with subcontractors performing under this task order.

OPTION TO EXTEND THE TERM OF THE CONTRACT (FAR 52.217-9) (MAR 2000)

(c) The COR will act as the Contracting Officer's representative for technical matters, providing technical direction and discussion as necessary with respect to the specification or statement of work, and monitoring the progress and quality of contractor performance. The COR is not an Administrative Contracting Officer and does not have authority to take any action, either directly or indirectly, that would change the pricing, quantity, quality, place of performance, delivery schedule, or any other terms and conditions of the contract (or delivery/task order), or to direct the accomplishment of effort which goes beyond the scope of the statement of work in the contract (or delivery/task order).

(d) It is emphasized that only a Contracting officer has the authority to modify the terms of the contract, therefore, in no event will any understanding, agreement, modification, change order, or other matter deviating from the terms of the basic contract between the contractor and any other person be effective or binding on the Government. When/if, in the opinion of the contractor, an effort outside the existing scope of the contract (or delivery/task order) is requested, the contractor shall promptly notify the PCO in writing. No action shall be taken by the contractor under such direction unless the PCO or ACO has issued a contractual change or otherwise resolved the issue.

Organizational Conflict of Interest

As a condition of award, the contractor's eligibility for future prime contract or subcontract awards may be restricted; therefore, the solicitation contains this proposed clause that specifies both the nature and duration of the proposed restriction.

(a) Purpose. This clause seeks to ensure that the contractor is not biased because of its current or planned interests (financial, contractual, organizational or otherwise) that relate to the work under this contract.

(b) Scope. The restrictions described herein shall apply to performance or participation by the contractor (as defined in paragraph (d)(7)) in the activities covered by this clause.

(1) The restrictions set forth in paragraph (e) apply to supplies, services, and other performance rendered with respect to the services provided under the Performance Work Statement, Sections 3.1.1. through 3.1.6.

(2) The financial, contractual, organizational and other interests of contractor personnel performing work under this contract shall be deemed to be the interests of the contractor for the purposes of determining the existence of an Organizational Conflict of Interest. Any subcontractor that performs any work relative to this contract shall be subject to this clause. The contractor agrees to place in each subcontract affected by these provisions the necessary language contained in this clause.

(c) Waiver. Any request for waiver of the provisions of this clause shall be submitted in writing to the Procuring Contracting Officer. The request for waiver shall set forth all relevant factors including proposed contractual safeguards or procedures to mitigate conflicting roles that might produce an Organizational Conflict of Interest. The decision to grant a waiver is solely within the discretion of the Contracting Officer. No waiver will be granted by the Contracting Officer with respect to restrictions related to access to proprietary data.

(d) Definitions. For purposes of application of this clause only, the following definitions are applicable:

- (1) "System" includes system, major component, subassembly or subsystem, project, or item.
- (2) "Nondevelopmental items" are as defined in FAR 2.101.
- (3) "Systems Engineering" (SE) includes, but is not limited to, the activities in FAR 9.505-1(b).

- (6) "Consultant" services are as defined in FAR 31.205-33(a).

- (9) "Interest" means organizational or financial interest.
- (10) "Weapons system supplier" means any prime contractor or first tier subcontractor engaged in, or having a known prospective interest in the development, production or analysis of any of the weapon systems, as well as any major component or subassembly of such system.

(e) Contracting restrictions. [Check the restrictions that apply]

(1) To the extent the contractor provides systems engineering and/or technical direction for a system or commodity but does not have overall contractual responsibility for the development, the integration, assembly and checkout (IAC) or the production of the system, the contractor shall not (i) be awarded a contract to supply the system or any of its major components or (ii) be a subcontractor or consultant to a supplier of the system or of its major components. The contractor agrees that it will not supply to the Department of Defense (either as a prime contractor or as a subcontractor) or act as consultant to a supplier of, any system, subsystem, or major component utilized for or in connection with any item or other matter that is (directly or indirectly) the subject of the systems engineering and/or technical direction or other services performed under this contract for a period of one year after the date of completion of the contract. (FAR 9.505-1(a))

(2) To the extent the contractor prepares and furnishes complete specifications covering nondevelopmental items to be used in a competitive acquisition, the contractor shall not be allowed to furnish these items either as a prime contractor or subcontractor. This rule applies to the initial production contract, for such items plus a specified time period or event. The contractor agrees to prepare complete specifications covering non-developmental items to be used in competitive acquisitions, and the contractor agrees not to be a supplier to the Department of Defense, subcontract supplier, or a consultant to a supplier of any system or subsystem for which complete specifications were prepared hereunder. The prohibition relative to being a supplier, a subcontract supplier, or a consultant to a supplier of these systems of their subsystems extends for a period of one year after the terms of this contract. (FAR 9.505-2(a)(1))

(3) To the extent the contractor prepares or assists in preparing a statement of work to be used in competitively acquiring a system or services or provides material leading directly, predictably and without delay to

such a work statement, the contractor may not supply the system, major components thereof or the services unless the contractor is the sole source, or a participant in the design or development work, or a contractor involved in preparation of the work statement. The contractor agrees to prepare, support the preparation of or provide material leading directly, predictably and without delay to a work statement to be used in competitive acquisitions, and the contractor agrees not to be a supplier or consultant to a supplier of any services, systems or subsystems for which the contractor participated in preparing the work statement. The prohibition relative to being a supplier, a subcontract supplier, or a consultant to a supplier of any services, systems or subsystems extends for a period of one year after the terms of this contract. (FAR 9.505-2(a)(1))

[] (4) To the extent work to be performed under this contract requires evaluation of offers for products or services, a contract will not be awarded to a contractor that will evaluate its own offers for products or services, or those of a competitor, without proper safeguards to ensure objectivity to protect the Government's interests. Contractor agrees to the terms and conditions set forth in the Statement of Work that are established to ensure objectivity to protect the Government's interests. (FAR 9.505-3)

[X] (5) To the extent work to be performed under this contract requires access to proprietary data of other companies, the contractor must enter into agreements with such other companies which set forth procedures deemed adequate by those companies (i) to protect such data from unauthorized use or disclosure so long as it remains proprietary and (ii) to refrain from using the information for any other purpose other than that for which it was furnished. Evidence of such agreement(s) must be made available to the Procuring Contracting Officer upon request. The contractor shall restrict access to proprietary information to the minimum number of employees necessary for performance of this contract. Further, the contractor agrees that it will not utilize proprietary data obtained from such other companies in preparing proposals (solicited or unsolicited) to perform additional services or studies for the United States Government. The contractor agrees to execute agreements with companies furnishing proprietary data in connection with work performed under this contract, obligating the contractor to protect such data from unauthorized use or disclosure so long as such data remains proprietary, and to furnish copies of such agreement to the Contracting Officer. Contractor further agrees that such proprietary data shall not be used in performing for the Department of Defense additional work in the same field as work performed under this contract if such additional work is procured competitively. (FAR 9.505-4(b))

[] (6) Preparation of Statements of Work or Specifications. If the contractor under this contract assists substantially in the preparation of a statement of work or specifications, the contractor shall be ineligible to perform or participate in any capacity in any contractual effort (solicited or unsolicited) which is based on such statement of work or specifications. The contractor shall not incorporate its products or services in such statement of work or specifications unless so directed in writing by the Contracting Officer, in which case the restrictions in this subparagraph shall not apply. Contractor agrees that it will not supply to the Department of Defense (either as a prime contractor or as a subcontractor) or act as consultant to a supplier of, any system, subsystem or major component utilized for or in connection with any item or work statement prepared or other services performed or materials delivered under this contract, and is procured on a competitive basis, by the Department of Defense with one (1) year after completion of work under this contract. The provisions of this clause shall not apply to any system, subsystem, or major component for which the contractor is the sole source of supply or which it participated in designing or developing. (FAR 9.505-4(b))

[X] (7) Advisory and Assistance Services (AAS). If the contractor provides AAS services as defined in paragraph (d) of this clause, it shall be ineligible thereafter to participate in any capacity in Government contractual efforts (solicited or unsolicited) which stem directly from such work, and the contractor agrees not to perform similar work for prospective offerors with respect to any such contractual efforts. Furthermore, unless so directed in writing by the Contracting Officer, the contractor shall not perform any such work under this contract on any of its products or services, or the products or services of another firm for which the contractor performs similar work. Nothing in this subparagraph shall preclude the contractor from competing for follow-on contracts for AAS.

(f) Remedies. In the event the contractor fails to comply with the provisions of this clause, such noncompliance shall be deemed a material breach of the contract. If such noncompliance is the result of conflicting financial interest involving contractor personnel performing work under this contract, the Government may require the contractor to remove such personnel from performance of work under this contract. Further, the Government may elect to exercise its right to terminate for default in the event of such noncompliance. Nothing herein shall prevent the Government from electing any other appropriate remedies afforded by other provisions of this contract, common law, or statute or regulation.

(g) Disclosure of Potential Conflicts of Interest. The contractor recognizes that during the term of this contract, conditions may change which may give rise to the appearance of a new conflict of interest. In such an event, the contractor shall disclose to the Government information concerning the new conflict of interest. The contractor shall provide, as a minimum, the following information:

- (1) a description of the new conflict of interest (e.g., additional weapons systems supplier(s), corporate restructuring, new first-tier subcontractor(s), new contract) and identity of parties involved;
- (2) a description of the work to be performed;
- (3) the dollar amount;
- (4) the period of performance; and
