

Senior Systems Analyst CNO Staff (VA23-02)

Description

Candidate will provide programmatic support to the Chief of Naval Operation N2N6 PNT Branch on Position, Navigation & Timing (PNT) and Global Positioning System (GPS). Programmatic issues related to PNT and GPS include military GPS user equipment (MGUE), and precise time and astrometry (PTA). Support the representation of positions and interests of the Navy in Joint and International forums to include:

Acquisition Review Boards; Operational Testing Readiness Reviews; Integrated Product Team meetings; meetings/conferences on emerging technology and related issues; Joint Requirements Oversight Council (JROC) and related JCIDS Boards.

Supports planning of future PNT systems, development of new technologies, and acquisition strategies incorporating these new technologies. Supports assessment of the impact of emerging threats to the DoD PNT systems and support formulation of plans to ensure ongoing viability the systems to include the impact of civil, commercial, and international use of the systems. Support the N2N6 US representative to NATO's Capability Panel 2 on navigation related issues. Support includes, logistics, briefings and administrative activities for N2N6 participation in these semi-annual NATO PNT forums (both in CONUS and abroad). Participate in investigating, evaluating, and recommending alternatives to support acquisition efforts and resource management efforts related to Navy systems aboard ships, submarines, and aircraft. Assist N2N6 with identifying transition issues, formulate solutions and plans to mitigate transition problems related to PNT.

Location

Pentagon
