

Senior Systems Analyst (VA22-02)

Description

Candidate will provide on-site support to the DoD Chief Information Officer's (CIO's) Positioning, Navigation and Timing (PNT) policy making and oversight responsibilities. Support activity includes research, engineering, technical, and administrative support to the DoD PNT Enterprise Oversight Council, Executive Management Board (EMB), and associated Working Groups. Responsibilities include maintaining all records and serving as the primary focal point for coordination of all materials/actions in support of Council, EMB, and Working Group meetings. Additionally, the candidate provides a wide range of support to the day-to-day management and program oversight responsibilities of the DoD CIO's office related to the DoD PNT Enterprise and, specifically the Global Positioning System (GPS) space, control, and user segments. These responsibilities involve maintaining close working relationships with stakeholders in the Military Services, the Joint Staff, and Combatant Commands relating to the execution of DoD policies addressing all aspects of the DoD PNT Enterprise, including Navigation Warfare (NAVWAR), the implementation by the Services of Alternative PNT capabilities, as well as various GPS modernization initiatives. The candidate will also support the DoD CIO in a wide range of interagency activities within between the DoD and other Federal Departments and Agencies that facilitate the global application and management of the systems. This support will be pertinent to DoD CIO participation in the National Space-Based PNT Executive Committee (NPEC) and the subordinate Executive Steering Group (ESG) and National Space-Based PNT Coordination Office (NCO).

Location

National Capital Region/Pentagon

Education and Experience

Candidates shall possess at a minimum of a Master's degree in a technical discipline from an accredited college. Ability to demonstrate twelve (12) years of related experience.

Qualifications

Candidate possesses working knowledge of GPS and alternate sources of PNT and their effects on combat operations.

Required

Must be US Security Clearance eligible at the Top Secret/SCI level. Have proficiency in all Microsoft Office applications. Ability to work in a team setting in a high-tempo environment is essential, along with strong communication and interpersonal skills.

Desired

Working knowledge/experience with the OSD Correspondence and Task Management Systems (CATMS).
