

Systems Analyst IV (VA24-02)

Description

Candidate will participate in providing policy and programmatic support for overseeing life-cycle management of the Positioning, Navigation and Timing (PNT) Enterprise.

Work focus areas include:

- Conduct economic/cost-benefit analyses of PNT services to both military and civil communities; operational analyses; testing and demonstration of PNT and Navigation Warfare (NAVWAR) services (including foreign PNT systems) for national defense and homeland security; and alternative governance/management structures for PNT systems/services to include GPS.
- Assists the DoD CIO in conducting assessments and analyses of emerging GPS, PNT, and NAVWAR technologies for application to current and future DoD PNT Enterprise systems.
- Develop management procedures, processes, and maintain requisite technical capabilities to support the DoD CIO in all phases of the PPBE process.
- Facilitates GPS testing and training capabilities in support of NAVWAR between DoD CIO, Federal Aviation Administration (FAA), and other interagency partners.
- Promote PNT resilience through drafting / editing of white papers, reports, staff packages for senior DoD leadership.

Location

National Capital Region

Education and Experience

- Candidates shall possess a minimum of a Masters' degree in a technical discipline from an accredited college.
- Ability to demonstrate twelve (12) years of related experience.

Qualifications

- Candidate possesses working knowledge of GPS and alternate sources of Positioning, Navigation and Timing (PNT)
- Possesses Pentagon staff experience

Required

- US Security Clearance TS/SCI eligibility.
- Proficiency in all Microsoft Office applications.
- Ability to work in a team setting in a high-tempo environment is essential, along with strong communication and interpersonal skills.

Desired
