

Space Programs System Analyst (VA22-03)

Description

The candidate provides technical and policy support to the Space Communications and Navigation (SCaN) program at NASA Headquarters including space policy and, coordination of NASA's Positioning, Navigation, and Timing (PNT) research and development programs to support NASA operations and science programs. The diverse portfolio includes: NASA's contribution to the modernization of the U.S. Global Positioning System (GPS) and the development of interoperable Global Navigation Satellites System (GNSS) capabilities to support space users, U.S. PNT interagency policy coordination at the National Space-Based PNT EXCOM and its working groups, sponsorship of the National Space-Based PNT Advisory Board and the National Space Council Users' Advisory Group (UAG), and multilateral engagement including the International Committee on GNSS (ICG) and its working groups. The candidate will work with a diverse group of organizations and would benefit from a technical and policy background on U.S. and international space activities. The candidate will support SCaN's domestic and international efforts, including PNT policy discussions, and is expected to be involved in the development and coordination of briefings, documentation, and outreach materials.

Location

Overlook HQ, Vienna, VA & NASA Headquarters, Washington DC

Education and Experience

Bachelor's degree and 3 years' experience, or Master's degree. Degrees in the fields of Science, Technology, Education, and Mathematics (STEM), as well as awareness / interest in navigation and GPS/GNSS, U.S./international space policy related to space operations, and/or young professional outreach and educational activities are a plus.

Required

Must be U.S. Government Security Clearance Eligible. Proficiency in Microsoft Office and Acrobat, cloud storage applications (OneDrive and Box), and video conferencing applications (MS Teams, Google Meet, and WebxEX) is required, as well as an ability to work both individually and in a team setting with rapidly moving deadlines is essential, flexibility to multi-task (including providing administrative support as required), along with strong communication and interpersonal skills. Flexibility for occasional U.S. and international travel is also a must.
